PROFESSIONAL SUMMARY

Software Engineer with academic and professional experience building production-grade software systems in collaborative engineering environments. Strong foundation in computer science principles, object-oriented design, and full software development lifecycle practices. Strong problem-solving skills and eagerness to learn new technologies and systems. As well as experience creating detailed technical documentation. Experienced in Python, C++, TypeScript, and SQL.

EDUCATION

Washington State University

Bachelor of Science

Major: Computer Science; Minor: Mathematics

GPA: 3.8; Honors: President's List [Spring 2022 - Spring 2025], James C. Geier Scholarship

Relevant Coursework: Neural Networks, Azure AI Fundamentals, Systems Programming, Data Structures & Algorithms

Pullman, WA

Jan 2022 – Dec 2025

TECHNICAL SKILLS

Programming Languages: C#, C++, Go, JavaScript, TypeScript, Python

AI Tools: Copilot, Cursor, Gemini, Claude Code

Systems & Tools: Grafana, Splunk, Linux/Unix, Gitlab, Docker, Kubernetes, Jenkins

Practices: End-to-end Testing, Agile/Scrum, CI/CD, Git, REST APIs

Cloud & Platforms: Foundational knowledge of AWS cloud services, Azure

Data: PostgreSQL, NoSQL, MongoDB

PROFESSIONAL EXPERIENCE

Schweitzer Engineering Laboratories

Associate Software Engineer

Pullman WA

Jan 2026 – Present

- Leading web development of a reusable JavaScript/TypeScript component library, establishing foundational UI patterns and tools that empower other engineers to build features faster and more independently
- Defining component usage guidelines, documentation, and best practices while supporting adoption across teams, reducing duplicated UI logic, improving maintainability, and establishing a long-term frontend platform that scales with growth

Software Engineer Intern

May 2025 – Dec 2025

- Developed and enhanced backend services for internal applications using C#.NET, implementing core logic and features that increased user satisfaction by 20% during software engineering internship
- Designed and built backend services to collect and process build and compilation metrics, and implemented data visualization components to surface performance insights for engineers, reducing analysis time by 80%

National Society of Black Engineers (NSBE), WSU Chapter

President

Pullman, WA

May 2025 – Dec 2025

- Forged partnerships with industry leaders, connecting 100+ members to career opportunities and 10+ company recruiters
- Launched 3 K–12 STEM programs, mentoring students and promoting early interest in engineering and computer science
- Led executive board of 9 officers, orchestrating professional development events raising organization participation by 18%

Washington State University, College of Engineering

Pullman, WA

Teaching Assistant – Data Structures & Algorithms

Aug 2024 – Dec 2024

- Led weekly lab sessions for 30+ students, reinforcing concepts in data structures and algorithms and objected oriented design
- Evaluated programming assignments and exams, delivering feedback contributing to a ~20% improvement in course outcome

PROJECTS & PROGRAMS

GoLang Todo API, Backend Developer – Pullman, WA

Feb 2026 – Feb 2026

- Developed a full-stack travel planning platform delivering 500+ individualized itineraries; implemented user authentication, backend data management and delivered features from prototype to deployment

Boeing Semantic Parser, Developer – Pullman, WA

Jan 2025 – Dec 2025

- Built a command-line tool that extracts, summarizes, and translates aviation manuals using transformer-based NLP models
- Designed modular pipelines for parsing and semantic search, integrating Hugging Face models and REST APIs

Hackronomics, Frontend Developer – Pullman, WA

Feb 2025

- Engineered a full-stack web application with JavaScript-based interactive data visualizations and a scalable backend system

LEADERSHIP & OTHER ACTIVITIES

Palouse Libraries, STEM Outreach Volunteer – Palouse Area, WA

Jan 2024 – Dec 2025

- Led STEM reading sessions and hands-on science activities for elementary students, fostering early interest in technology

Black Student Union, Member – Pullman, WA

Jan 2022 – Dec 2025

- Actively engaged in cultural advocacy, peer-mentorship, and initiatives that fostered an inclusive campus community

Why Not You Academy, Near-Peer Mentor – Remote

Sep 2024 – Apr 2025

- Mentored 15+ high school students on college decisions and shared insight into studying computer science and tech careers

SKILLS & INTERESTS

Other Skills: Effective Collaborator, Excellent communication, Problem solving, Leadership, Attention to Quality
